A Journey of Change and Resiliency: Exploring Sustainable Development Solutions for Climate Justice & Peace

Are you **passionate** about the **outdoors**?
Interested in **learning** about **island innovations** and **biocultural responses** to climate change?

Want to **engage** your senses and passion for **climate justice** while making **friends**?

Then join Hawai'i and international youth for a **two-week exploration of the island of O'ahu** that will improve your ecological literacy and develop your changemaker skills in the most remote population center on earth.

Live, learn, and work together with new friends

Enjoy the unique natural resources and service learning opportunities living and learning on three sides of the island. Each day explore ancient wisdom practices and innovative solutions to island challenges. Share your own interests and ideas to build communities and solutions that unite people, nations and cultures for peace and a sustainable future.

Spectacular natural and cultural resources

Partake in a moveable feast of place-based experiences and engagements led by expert facilitators and instructors eager to share the power and beauty of this island.

Engage your senses

Have fun with your peers playing in the ocean, on a Ropes Course, kayaking, snorkeling, hiking, star-gazing, campfires, and more in this beautiful learning environment.

Learn collaboratively while exploring local/global climate change issues and impacts, resiliency and sustainability with a focus on local food and energy systems. Engage with next-generation food and energy producers. Explore human and nature-centered design while helping restore watersheds and ancient sustainable fishponds.

Develop systems-thinking skills
Explore Native Hawaiian systems-thinking approaches expressed through cultural and conservation practices, food and energy systems, and sustainable tourism. Reflect and engage with others to help develop your own place-appropriate strategies.

Play it forward
Apply your *'ike maui* -foundational learning- by identifying a project and outlining an action plan to carry on in your own community. Play forward those commitments through social networking on a dedicated online platform for continued exchange of ideas and information, project coaching and support.

Dates: August 3-16, 2020
Location: O'ahu, Hawai'i, USA
Application deadline: April 1, 2020
